HEAVY DUTY REPLACEMENT CORES

Things wear out. Its not fun, but its true.

You have a busy operation, and your equipment can run around the clock. As a result, your spiral cores can take a beating. Profile's in-stock inventory of spiral cores means you can get **replacement cores shipped within 48 hours**. Sounds good, right?

Here is the best part:

OUR REPLACEMENT CORES ARE GUARANTEED TO WORK WITH ANY OF YOUR EXISTING SEPARATION EQUIPMENT.

Every replacement core is designed for:

- **Turnkey Solutions:** offering easy installation into any manufacturers enclosure.
- **Long Lasting Durability:** heavy-duty construction manufactured with welded galvanized steel to withstand heat and vibration.
- **Thorough Separation:** with four separating turns to ensure effectiveness.

SPECS:

MATERIAL: Galvanized or stainless steel

POWER: Zero energy consumption

CRATE INFO: ISBM-15 Certified*
